# Paige Weber

5431 Starflower Dr Charlotte, NC 28215 801-577-0192 paigeweber13.github.io paigeweber31@gmail.com

### **Education**

#### M.S. in Computer Science, Systems Emphasis

Expected to graduate Jun. 2021

### University of North Carolina at Charlotte

- "High Performance Computing" Crafted accelerated algorithms with CUDA. Used Intel Intrinsics and OpenMP to saturate FLOP units and memory bandwidth of modern multicore processors.
- "Machine Learning" Implemented common machine learning algorithms, such as Least Squares, Linear Discriminant Analysis, and Q-Learning. Designed architecture of Neural Networks.

#### B.S. in Computer Science, Systems Emphasis, minor in mathematics

Graduated Dec. 2020

University of North Carolina at Charlotte

• "Parallel Computing" - Modelled performance and parallelized algorithms using OpenMP and OpenMPI.

### Summary of Skills and Experience

- 5 years experience building native applications using C++ for university courses
- 1 year professional experience with OpenMP, Intel Intrinsics, and performance monitoring software (LIKWID)
- Fluent in Mandarin Chinese and French

# **Employment History**

#### **University of North Carolina at Charlotte**

Jan 2020 - Present

Research Assistant - High Performance Computing Laboratory

Charlotte, NC

- Manage an individual project to create a custom profiling software using hardware counters (model-specific registers) which analyzes architecture performance on sparse graph problems
- Use Intel Intrinsics, OpenMP, and likwid-perfctr to benchmark desktop systems and compute clusters

Sealed Air May 2019 - Aug 2019

#### IT Intern - Innovation & Development

Charlotte, NC

- Participated in an agile team tasked with improving an Industrial-IoT application used by factories in three countries
- Developed and automated the creation of data visualizations for presentations to company executives
- Used R, Python, RabbitMQ, ThingWorx, and Java

### BYU - Center for Teaching and Learning (CTL)

Jan 2017 - Dec 2017

### Computer Support Representative

Provo, UT

- Managed conversion of paper processes to web applications affecting two departments and ~110 employees
- Maintained 50 servers which provided access to over 200 websites for many departments across campus
- Sourced and performed troubleshooting on hardware for animators, graphic designers, video editors, programmers, and other CTL employees

**Morinda** Aug 2016 - Jan 2017

#### **Commissions Agent**

American Fork, UT

· Created and maintained records of payments made in four countries using Excel, Windows batch, and Python

### RainSweet, Human Resources department

Jun 2013 - Aug 2013

Time Keeper

Salem, OR

- Expanded company ethernet network
- Led a project to create a company video that summarized 300+ hours of footage
